RESULTS

Measurement Method

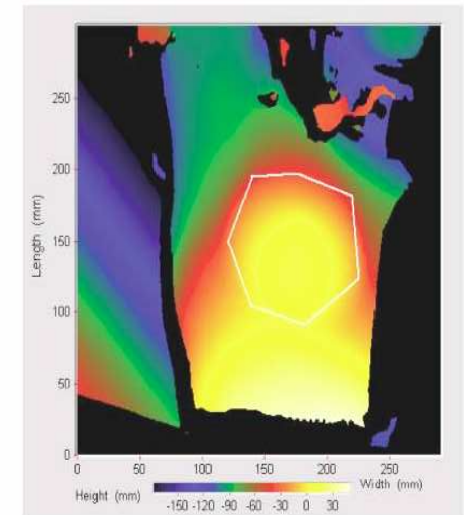

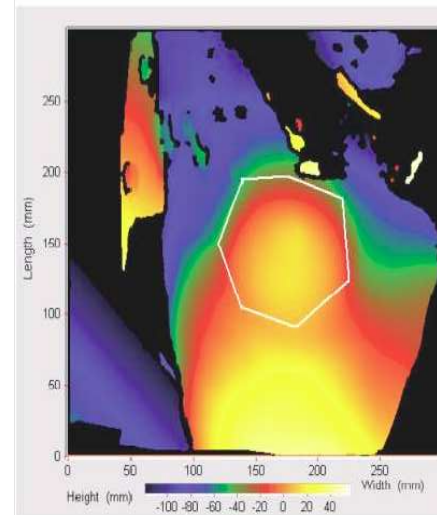

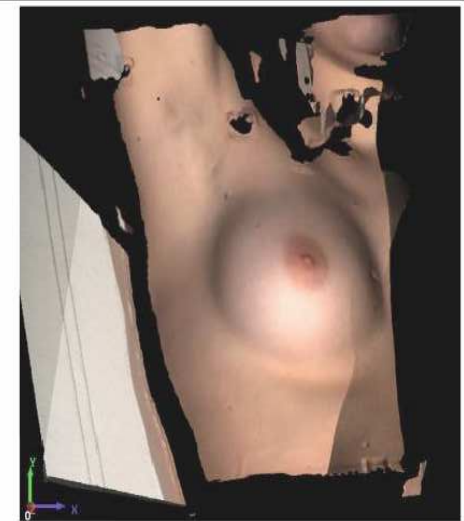

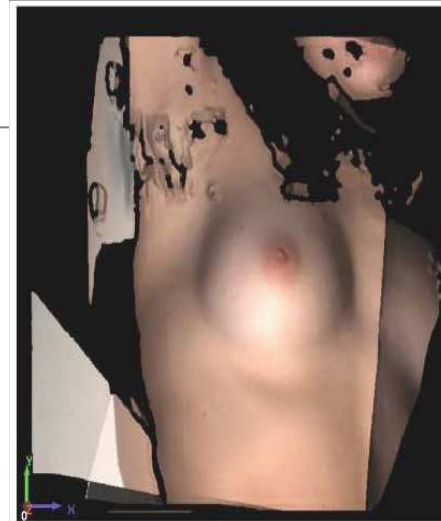

Derivation of 3D spatial coordinate
the breast

Integration of the volume with a special
software

Single-blind study, 6
participants, age: 26 years as average
Clinically healthy, not pregnant,
without weight gain

Application: product with 5%, 2%
Cell Active-FORM[®] and placebo (0%
CellActive[®] FORM)

Duration: 84 days of treatment, apply
twice daily

Tips

We have seen an even better result following a professional procedure:

- Application of Performance Bust
 - Radiofrequency 5 minutes in each breast
 - Model Fit
- Total protocol 30 minutes. From first session you can see remarkable effects although we do recommend not less than 8-12 sessions
