Solutions for Rosacea

The **Soft Derm** Line by Atache

SOFT DERM is ideal for rosacea sufferers, the client with sensitive skin, and those with extremely dry skin conditions that need additional moisture and support ingredients to protect the delicate layers of the epidermis.

- Incorporates **Thasso therapy**, mineral rich water, and **milk proteins** for effective anti-inflammatory benefits. The water source is from the Northern region of France known for its healing properties through a rich mineral base of calcium, magnesium, zinc, and copper. These minerals are essential to skin wellness and the restoration of the pH balance.
- Delicately combines **Aloe barbadensis** for its protective qualities and **hydrosoluble Olive Oil** for moisture.
- **Capparis spinosa extract** is used for its ability to reduce the production of IL-8 and TNF-alpha known as a mediator of inflammation.
- **Enteromorpha compressa** reduces erythema and regulates skin neuronal sensors.

Together the ingredients produce a reduction in inflammation, desquamation, itchiness, and erythema all while restoring the necessary level of moisture.

SOFT DERM offers a complete professional back bar for a perfect calming facial experience for the most sensitive skin types. The line also includes a comprehensive retail selection to assure reparative and lasting results. Experience the combination of soothing botanicals and science to produce an outstanding line of skincare for all your client's needs.

Advanced Skincare Classes Scheduled

Dermavista and Atache have joined to offer advanced skincare classes in several US cities during 2008.

Learn about the latest product technology from Atache for:

- Antiaging and wrinkle reduction.
- Hyperpigmentation and sun damage.
- Antioxidant and rejuvenation.

Receive training for Atache's new chemical peels: Glycolic, Lactic, Mandelic and Salicylic.

Get information on breakthrough solutions for these common skin hormonal conditions:

- Acne
- Unwanted hair
- Cellulite
- Hair loss (Alopecia)

CEU's may be available. Classes are currently scheduled for Atlanta, Chicago, Dallas, Houston, Miami, and Orlando.
